

Khanya Spaces — Our Process

Because Ordinary is Not Your Style.

From first spark to final Khanya Space — a journey designed to thrill.

1 – Discovery Meeting

We begin with an in-space consultation to uncover your lifestyle, personality, and aspirations. This is where your Khanya journey starts.

2 – Budget & Scope Approval

Together, we confirm your budget framework and project scope. This ensures alignment and allows us to guide you toward the best choices for your Khanya Space.

3 – Concept Development

Your tailored design concept takes shape. For the Vision Package: an inspiration mood board & design plan (with up to two refinements). For the Reality Package: expanded sourcing boards, curated selections, and installation planning. For the Signature Package: all of the above, with added preparation for your unforgettable Khanya Reveal Celebration.

4 – Design Implementation

Once approved, we source the furniture, décor, and finishes, and our team transforms the concept into reality. Every detail is handled so your space is brought to life as a true Khanya Space — just the way you imagined, and made to spark conversation.

5 – The Reveal

Your Khanya Space is unveiled in true Khanya style. For the Vision Package: you receive your final hard-copy design pack — the blueprint of your dream. For the Reality Package: you step into your finished Khanya Space, brought to life, just the way you imagined — and made to spark conversation. For the Signature Package: your journey culminates in a Khanya Reveal Celebration — complete with themed invitations, catering, entertainment, and a one-of-a-kind unveil moment that transforms your new space into an unforgettable shared experience.
